Strip House is located at the Reach Resort in Key West. The only Caribbean Island in the United States. Strip House's innovative menu, created by executive chef John Schenk, includes prime cuts of meat charred to perfection, signature side dishes such as truffle creamed spinach and goose fat potatoes, an extensive wine list and the famed 24 layer chocolate cake. Indulge yourself and guests in a seductive private dining experience in the famed New York Steak House.

The striking, siren-red interior, designed by David Rockwell, is decorated with black & white seductive images of women photographed by Studio Manasse in the early 1900's in Vienna.

Dan Curran
Director of Private Dining
